

Emergency Procedures

- If an emergency occurs, 911 will be called immediately. Starting Blocks Academy will administer aid to the child until help arrives. The child will be transported to the nearest hospital and the parent will be notified immediately.
- Small cuts, bumps and bruises will be washed and bandaged if needed. An Ouch Report will be completed and a copy provided to the parent. A record will be kept in the child's classroom file.
- If your child has had an accident or injury at home, please notify Starting Blocks Academy, so we can be aware of this injury.
- A fire drill will be conducted monthly.
- Safety awareness will be embedded in the curriculum for children to practice 911, stop-drop-roll, and other safety procedures.
